Royal College Training in **GENERAL SURGERY**

(MRCs Clinical Premier Training)

This is a unique 3 years structured fellowship program designed specifically with an emphasis on MRCS exam clearance. This program helps the doctors to build on their existing knowledge, skills, and experience and develop mastery in the clinical and service aspects of surgical specialty. The Program has been structured in a way to encourage and build confidence for the students to appear and clear the theory and clinical exams of MRCS.

It is a hospital-based fellowship program after MBBS in India, where students will be allowed to take up their clinical training in one of the hospitals associated with Texila with all necessary rotations as per the requirement of the Royal College of Surgeons. While gaining hands-on learning experience, students can also gain insights and training from certified trainers of the Royal College of Surgeons, UK.

Duration  3 Years

Eligibility:

1

MBBS or equivalent qualification with permanent registration of Medical Council of India.

2

Students of Indian Nationality

3

Admission to the program will be based on the clearance of the screening test and Panel Interview.

Teaching Methodology

Hospital-based teaching

Clinical rotations in departments as per royal college standard.

Guided by senior consultants & RCP-certified educational supervisors.

Acquire clinical skills & knowledge through training in DNB status or NABH accredited hospitals.

Review of contemporary articles in the concerned subject.

List of Associated Hospitals:

Why Choose Us?

Structured 3-Year Training

At Texila, we offer a structured 3-year training program of international standards. The training provided is equivalent to the training provided in the United Kingdom for the Royal College Program. Our curriculum and assessment are designed and delivered by trained Royal College faculty members.

Supervised Training

We offer a supervised training program in which each trainee is supervised and guided by:

The supervisors are responsible for providing support to the trainee by identifying the educational needs, the setting of learning goals, reflective learning, and personal development through monthly one-on-one interactions.

Workplace Assessments

Regular workplace-based assessments are conducted throughout the training program with an ARCP. Students undergo ARCP at the end of the year I & year II. A Royal College qualified expert (Program Champions) will be present at all ARCPs to ensure that the UK equivalent standard is achieved.

Associate Membership

Membership access from Royal College, UK, is provided to all the students enrolled under our program.

Practical Training

During the course of our Royal College Exam Training Program (UK), students will undergo extensive clinical and practical training at some of the leading hospitals in the country. Moreover, students are eligible to earn an attractive monthly stipend during the three-year period as well.

Upon completion of 3 years training students will be awarded a Fellowship Certificate and a clinical posting letter from the hospital.

Career Path

Upon successful completion of the 3-year Royal College (UK) training program and receipt of the certification, students can opt to work in any of the commonwealth countries, i.e., UK, New Zealand, India, etc., and are eligible to work as consultants.

Weekly Lecture sessions

Weekly lecture sessions will be conducted by Royal College certified faculty to guide the students for the preparation of the Royal College exam.

Question bank access

Students will get access to PATEST subscription in which 2000+ questions are available to prepare for the RCP exam.

Mock examination

Periodical mock exams will be conducted to assess the student's progress.

Faculty and Support

At Texila, we pride ourselves in being able to provide you with experienced, international faculty and world-class support.

Faculty

Our faculty members come from international backgrounds and are committed to ensuring your period of study. They are advising and guiding the students to complete their Academic Requirements on time. Our prime focus is to deliver timely and constructive feedback to complete the program successfully.

Student Mentors

Our Student Mentors are experts in delivering the academic support, and they are specifically assigned to help you on completion of academic requirements on time, they will assist and guide students on academic issues whenever required.

Academic Coordinators

Our academic advisors will guide, develop, and manage comprehensive academic activities, also render the faculty support to the students on submission and evaluation to complete the program on time.
